

DEPARTMENT OF THE AIR FORCE  
HEADQUARTERS UNITED STATES AIR FORCE  
WASHINGTON 25, D. C.

SUPPORTING DOCUMENT NO.

AFORQ-AD

MAY 31, 1962

(U) Qualitative Operational Requirement (QOR) for a  
Satellite Interceptor System.

ADC (ADLDC)

1. Reference your QOR for a Satellite Interceptor System (SIS), dated 1 May 62. (U)
2. The requirements stated in the above reference are in consonance with the objectives of this headquarters as regards satellite interception. Actions of the Air Force will be oriented toward the system development in accordance with the phases suggested in your QOR SIS. [REDACTED]
3. Phase I capability is being pursued under ADO 40, and a Development Plan is to be submitted to this headquarters by 1 Jul 62. Phases II and III are within the scope of WS-621A. When appropriate, a Specific Operational Requirement will be issued to cover the overall satellite interceptor system. [REDACTED]
4. The feasibility of the operational dates given in your QOR SIS cannot be validated, as system schedules are not possible until the SOR is issued. (U)
5. This letter is classified CONFIDENTIAL because it reveals future operational requirements.
